

MODEL

RESISTIVE BANKS - RS - single phase

FEATURES

- Supply voltage single phases 380V

DESCRIPTION

Resistor banks for industrial heating applications
The heating elements are made of several power resistors star connected.
Metallic cage is black painted with tabs for wall or floor fixing.

	TECHNICAL SPECIFICATIONS	UNIT	VALUES
1.	POWER	kW	1
2.	SUPPLY VOLTAGE	v AC	380 single phase
3.	CONNECTION	--	Ceramic terminal inside the case; cable inserted by way of metallic cable gland of 3/4"
4.	INSULATING VOLTAGE (1min. 50 Hz)	Vac	2000
5.	INSULATION CLASS	--	I
6.	PROTECTION DEGREE	--	IP20
7.	WEIGHT	Kg	14,5
8.	MARKING	--	CE
9.	OPERATING AMBIENT TEMPERATURE	°C	-20° - 65°

DIMENSIONS	ELECTRICAL CONNECTIONS
